Fabio[®]
P R O D U K T

Jana, František and Alexandr Jenček

We are writing the story of a family business from the Bohemian Paradise.

The beginnings of the Jenček family in agriculture reach back 150 years, with the fourth generation of owners moving from fieldwork to oil pressing. We founded the company Fabio Produkt in 1992, which in the span of 30 years of its existence transformed from a low capacity pressing plant into a significant Czech supplier of cooking oils with more than 200 employees and 6 manufacturing plants.

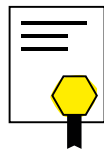

We are a major manufacturer of vegetable oils in the Czech Republic, importer of tropical oils, manufacturer of fruit fillings and a supplier of an extensive range of goods for bakers, confectioners and gastronomy.

30 years

Nature and our region are important for us

Corporate responsibility and values

Our corporate values lie in creating a positive impact on society and the environment. Our corporate responsibility is not just about words, but concrete actions aimed at long-term sustainability.

Regenerative agriculture

Our agricultural production focuses on increasing the content of long-term bound carbon in the soil, retaining water in the landscape, and improving soil structures – all through natural ecological and biological processes, with maximum support for microbial life in the soil.

[More about our sustainable agricultural practices on page 28](#)

Certified quality raw materials

All our production processes meet the requirements of strict food standards, as evidenced by obtained certificates and certifications. We carefully select raw material suppliers and use certified ingredients, we trace the origin of raw materials and support products from sustainable agriculture.

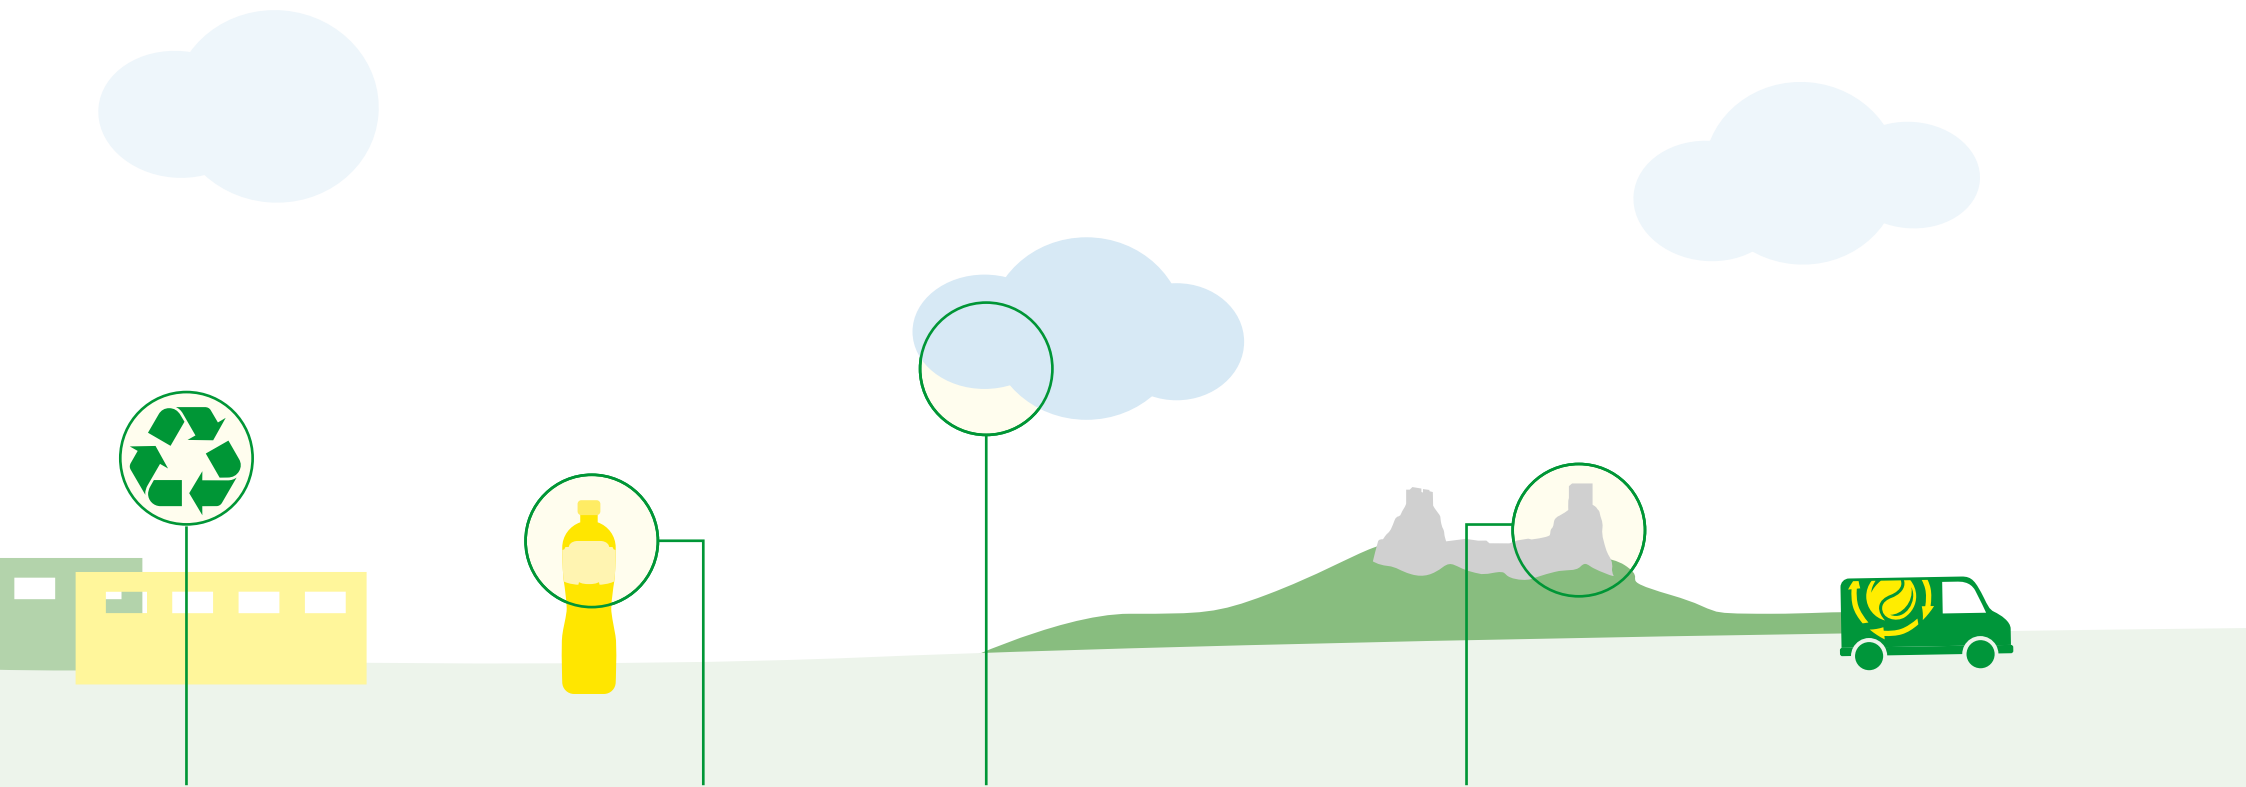

Sustainable resources: e-mobility and photovoltaics

We harness clean energy from the sun through photovoltaic systems located on the roofs of our facilities, reduce dependence on fossil fuels by purchasing electric vehicles, and support renewable sources.

Zero-waste production

We cold-press oils and gently refine it without any use of chemicals. The entire production is zero-waste; we recycle and process the oils for further use without ecological impact.

[More about our oil production on page 4](#)

Recycling

We offer a certified system for collecting used kitchen oils from companies and municipalities. We recycle and process waste into raw materials and products for further technical use with minimal impact on the environment.

More about oil recycling on [page 32](#)

Ecological packaging

Our efforts towards ecological packaging and zero-waste production are rooted in the belief that we can create quality products without any negative impact on the environment. All our packaging is fully recyclable. We prefer species-appropriate packaging made from recycled paper and films in optimal quantities and logistics. We recycle packaging materials and damaged returnable packaging ourselves.

Carbon neutrality

We produce oils with a lower carbon footprint. From the very beginning of our business, we use energy-efficient processes and invest in innovations to minimize our environmental impact.

Support for the region

By purchasing raw materials and products from regional farmers and producers, we directly contribute to the sustainability and prosperity of our region. We actively seek opportunities to participate in improving the socio-economic environment in our region.

More about our farmer shops on [page 40](#)

Transparency and cooperation

We are open and transparent about our practices and initiatives towards sustainability. We collaborate with trustworthy partners to create a more sustainable supply chain and achieve common goals.

See our [ESG Report](#) for more details on our corporate responsibility.

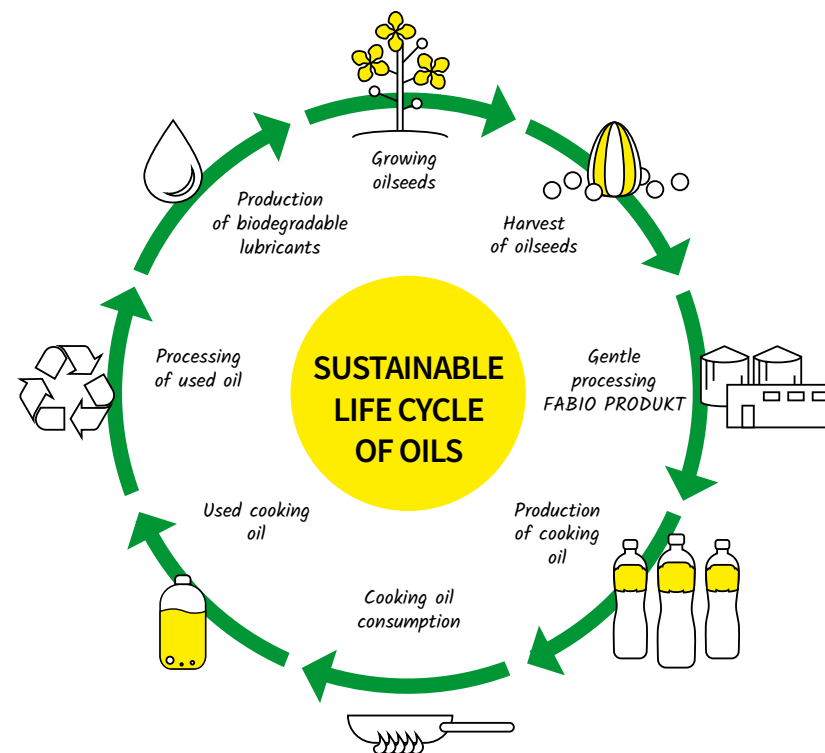

Vegetable oils

A piece of paradise in every drop

We have been producing vegetable oils for over 30 years, transforming from a small pressing operation in the heart of the Bohemian Paradise to a **prominent producer of oils in the Czech Republic**. However, our initial enthusiasm and care for the final product remains. Our oil is **cold pressed** and **physically refined without any unnecessary use of chemicals**. We believe, that despite the increased effort required on our part, you will be able to recognize and appreciate the high quality.

Another idea we enforce since our beginnings is **sustainability**. We therefore approach the **disposal of used oil responsibly**.

8 000 tons of oilseed

Our store capacity

Gentle processing

Oil is refined physically without the unnecessary use of chemicals.

Complex production

We have our own seed cleaner and dehuller, pressing operation, refinery and laboratories at our disposal.

Separated warehouses

We have separated warehouses and supply paths for each type of oil with a capacity of 1 800 tons of crude oils and 1 000 tons of refined oils.

Own logistics

We regularly distribute goods by our own vehicles – tank trucks, trailers for 33 paletts, 12 and 18 tons delivery trucks and kippers.

Oil recycling

We recycle used cooking oil in a separate factory.

Take a look

At the entire story of the seed from its harvest to the turned in bottle of used oil (UCO).

Oils for cooking and baking

Oils with modified heat stability for versatile use must be a part of every pantry. Thanks to the gentle physical refining and absence of unnecessary chemicals in the production process, our oils retain their natural antioxidants, smell and taste.

Rapeseed oil

Rapeseed oil for regular cooking

USE

Manka is our favourite. Rapeseed oil is excellent for **versatile use** in kitchen – cooking, frying and baking. Its low saturated fatty acid content and a **favourable omega 3 to 6 fatty acid profile** make it a suitable addition to a diet. It is also suitable for common frying thanks to its higher thermal stability.

PACKAGES

1 l, 3 l, 5 l, 10 l, BiB 10 l, barrel, container, tank

Rapeseed oil with buttery taste

Rapeseed oil for regular cooking with buttery aroma

USE

Equally versatile as standard Manka. **Buttery aroma** livens up the prepared dish, goes well with frying batter and adds a fragrant touch to pastry.

PACKAGES

1 l, 3 l, 5 l, 10 l, BiB 10 l, barrel, container, tank

Rapeseed oil with vitamin D

Rapeseed oil enriched with vitamin D

USE

Equally versatile as standard Manka. **Vitamin D** helps with maintaining healthy function of the immune system.

PACKAGES

1 l

Sunflower oil

Sunflower oil for regular cooking

USE

Traditional choice of oil, **suitable for light cooking, sautéing** and cold cuisine - dressings, marinades... Our gently processed Slunka retains its light smell of sunflower seeds.

PACKAGES

1 l, 3 l, 5 l, 10 l, BiB 10 l, barrel, container, tank

Gastro – mix of vegetable oils

Blend of sunflower and rapeseed oil

USE

The answer to a frequently asked question – On which oil to cook? Rapeseed or sunflower? You can't go wrong by combining them, both have a **low saturated fat content** and are perfectly suitable for everyday cooking.

PACKAGES

1 l, 3 l, 5 l, 10 l, BiB 10 l, barrel, container, tank

Frying oils

A series of oils and oil blends developed for frying and long deep frying. They are characterized by high oxidative stability of 180 - 220°C. A new trend is HighOleic sunflower oil, which comes into existence by the processing of the High Oleic breed with a High Oleic acid content. Despite belonging to unsaturated fatty acids, oleic acid has high oxidative stability.

Fabio Fry Perfect

Blend of rapeseed and palm oil

USE

A blend of **rapeseed and palm oil** is a classic popular for its amazing properties for deep frying, but also its suitability for regular cooking.

PACKAGES

5 l, 10 l, BiB 10 l

Fabio Fry HOSO

Sunflower oil High Oleic (HOSO)

USE

Thanks to its **content of High Oleic sunflower hybrids**, Fabio Fry HOSO is great for frying and deep frying. Single species content is an interesting alternative among deep frying oils, while being a more versatile version of regular sunflower oil, usable for cooking.

PACKAGES

10 l, BiB 10 l, container

Fabio Fry Premium

A blend of rapeseed and sunflower oil High Oleic, defoamer

USE

Palm-free blend developed for achieving the perfect result when frying and deep frying, while also being suitable for regular cooking. A great choice for both home and professional use thanks to its favourable fatty acid profile.

PACKAGES

1 l, 3 l, 5 l, 10 l, BiB 10 l, barrel, container, tank

Fabio Fry Profi

A blend of rapeseed and sunflower oil High Oleic, antioxidant

USE

A blend of rapeseed and sunflower oil with special **longlife recipe** ensuring better stability for high load use.

PACKAGES

5 l, 10 l, BiB 10 l, container

Oils in glass

Gently cold-pressed virgin oils retain their taste, smell and healthy compounds of the source plant. They are a potent component of cold cuisine and a foundation for creating a true culinary speciality.

Rapeseed oil

Gently refined rapeseed oil

USE

Rapeseed oil is very versatile thanks to its high thermal stability, useful in both cold and warm cuisine. A **high omega 3 fatty acid content** makes it one of the healthiest oils.

PACKAGE

750 ml

Rapeseed flavoured oils

Gently refined rapeseed oil with herbs from the Bohemian Paradise

USE

Thought out oil flavors improve meals of both cold and warm cuisine in an interesting way.

VARIANTS

Salad: paprika, basil, oregano, satureja

Delikates: garlic, pepper, dill, bay leaf

Grill-steak: garlic, pepper, rosemary, hyssop

Provence: paprika, oregano, lavender, Provence herb mixture

PACKAGE

250 ml

Sunflower oil

Gently refined sunflower oil

USE

Oil with a subtle sunflower seed smell and taste. Thanks to the gentle refining process, Slunka is a viable choice **not only for cold cuisine.**

PACKAGE

750 ml

Olive oil

Extra virgin olive oil

USE

For both warm and cold cuisine. Its **characteristic taste** has become a staple of the Mediterranean cuisine. It has a large antioxidant content.

PACKAGES

500 ml

Pumpkin seed oil

Cold pressed pumpkin seed oil

USE

For cold cuisine and a finishing dash for warm cuisine. **Intense taste and color** can amazingly influence the prepared dish.

PACKAGE

250 ml

Flaxseed oil

Cold pressed flaxseed oil

USE

The undisputed number one in **omega 3** unsaturated fatty acid content. Suitable for cold cuisine for its slightly bitter taste.

PACKAGE

250 ml

Exotic oils

Extra virgin olive oil

Extra virgin olive oil

USE

Iconic taste of olive oil best suited for cold cuisine.

PACKAGES

5 l, container

Our exotic oils come from verified sources. We also offer palm oils certified under the RSPO Supply Chain Certification.

RSPO-4-1150-19-100-00

Coconut oil

Refined and deodorized coconut oil extracted from coconut pulp

USE

Versatile use – cooking, frying, baking, buttercream and making of unbaked desserts

PACKAGES

1 l, 5 l, 10 l, 10 l BiB

Olive oil Pomace

Olive oil made from press cakes

USE

Refined olive oil extracted from press cakes is perfect for warm cuisine, supplementing fried dishes with its characteristic taste.

PACKAGES

5 l, container

Palm oil

Palm oil

USE

Great for both shallow and deep frying, also suitable for regular cooking.

PACKAGES

5 l, 10 l, BiB 10 l, container, tank

Palmolein

Palm oil from first fractionation

USE

Great for both shallow and deep frying, also suitable for regular cooking.

PACKAGES

5 l, 10 l, BiB 10 l, container, tank

Palm oil RSPO

Certified variant of the product

PACKAGES

5 l, 10 l, BiB 10 l, container, tank

Palmolein RSPO

Certified variant of the product

PACKAGES

5 l, 10 l, BiB 10 l, container, tank

Fats and margarines

High-quality hardened oils and margarines free of trans fatty acids have excellent properties for the production of pastries and creams. We also offer palm oils certified under the RSPO Supply Chain Certification.

RSPO-4-1150-19-100-00

Fabiovit S with buttery aroma

Margarine from rapeseed and palm oil is suitable for baking delicate cakes and pies, yeast dough and biscuit cakes.

PACKAGE
10 kg

Fabiovit T

Laminating margarine from palm and rapeseed oil suitable for fine puff pastry, making it high volume and delicate.

Greasing oils for gastronomy

Oils designed for maintaining gastronomical machinery, mould greasing, hobs, stoves, cutters and further accessories that come in contact with food.

Pek Oil

Modified vegetable oil suitable for greasing of all kinds of food processing machines, including bread cutters, especially in bakeries.

PACKAGES

10 l, barrel, container

Slun Pek

Special, fully refined vegetable oil with High Oleic acid content and high thermal stability suitable for greasing of baking moulds and trays.

PACKAGES

10 l, container

Cooking oil sprays

Cook smart

Grease pans, oddly shaped moulds, grills or hobs perfectly in one stroke. Spraying can substitute coating of pastry before baking. Our flavored variants go one step further by adding an amazing flavor to prepared dishes in a second, be it during the cooking itself or as a finishing touch.

Advantages of oil sprays

1. Easy application
2. 3 modes of spraying
3. Controlled dosing
4. Substitutes manual greasing
5. Prevents burning
6. Suitable for uneven surfaces
7. Finishing flavouring
8. Fresh appearance of dishes

Cooking oil sprays

Use the great properties of sprays when greasing pans, molds, hotplates or baked foods or pastries. Our range of cooking sprays cover all areas of cooking from frying and baking to grilling.

[Take a look](#)

How to use cooking oil sprays

Rapeseed oil

Rapeseed oil in spray

USE

Thanks to its neutral taste and high thermal stability, rapeseed oil is very versatile. Evenly greases pans, hobs or baked dishes (potatoes, vegetables, salted pastry etc.).

PACKAGE

250 ml

Baking spray

A blend of rapeseed and sunflower oil in spray

USE

A blend specifically designed to optimally grease moulds for both sweet and salty baking. Completely invalidates the need for flour sprinkling as the spray coats perfectly even very uneven surfaces.

PACKAGE

250 ml

Buttery taste

Rapeseed oil with buttery taste in spray

USE

For butter lovers. Aromatized rapeseed oil imbues pancakes, eggs or even lightly fried vegetables with a lovely smell.

PACKAGE

250 ml

Avocado

Avocado oil in spray

USE

Oil with a neutral taste for versatile use. For evenly greasing pans, waffle irons, baking tins, for preparing home fries, etc. It can also be used for grilling due to its high thermal stability.

PACKAGE

250 ml

Coconut oil

A blend of coconut and sunflower oil in spray, propane-butane mix

USE

Food prepared on coconut oil gains its fresh taste, traditionally used for example in Asian cuisine. Adds a pleasant flavor to pancakes, crêpes and other sweet or salty foods.

PACKAGE

300 ml

High stability

High Oleic Sunflower oil in spray, antioxidant

USE

Oil from a special breed of sunflower, which offers a very high thermal stability. It is suitable for greasing in high temperature dishes without the risk of burning the oil.

PACKAGE

300 ml

Spiced oil sprays

Cooking has never been easier. Our flavored oils liven up even the blandest of foods and add a new depth to your favourite recipes.

Herbs

Aromatized rapeseed oil in spray

USE

For a finishing touch on vegetables and meat, goes well with fish, toasted baked goods or pasta.

PACKAGE

250 ml

Rosemary

Aromatized rapeseed oil in spray

USE

Rosemary goes well with baked dishes, especially potatoes or pumpkin. Use it for baking and highlighting the taste while serving.

PACKAGE

250 ml

Lemon-basil

Aromatized rapeseed oil in spray

USE

Amazing combination for vegetable salads and canapés, suitable for final flavoring of fish, baked vegetables or pasta.

PACKAGE

250 ml

Garlic

Aromatized rapeseed oil in spray

USE

For salad flavoring, vegetable carpaccio, grilled meat. Adds depth to the flavor of toasted baked goods.

PACKAGE

250 ml

Lemon-lime

Aromatized rapeseed oil in spray

USE

Perfect for salads, baked goods, finishing touches on meat, fish, seafood, sauces, pasta, risottos, and sweet desserts.

PACKAGE

250 ml

Chilli

Aromatized rapeseed oil in spray

USE

Adds a savoury note wherever you like it - grilled meat or vegetables, in salads, dressings and spreads. Try out even more daring combinations, for example with chocolate.

PACKAGE

250 ml

Truffle

Aromatized rapeseed oil in spray

USE

Truffle taste is ideal for creamy sauces on pasta, vegetables, meat, baked goods but also chocolate desserts.

PACKAGE

250 ml

Cold pressed oil sprays

Cold pressed olive oil

Extra virgin olive oil in spray

USE

Oil intended predominantly for cold cuisine supplements a dish with its iconic taste. Sprinkle over salads, put into dressings or decorate with it.

PACKAGE

250 ml

Cold pressed pumpkin seed oil

Cold pressed pumpkin seed oil in spray

USE

Pumpkin oil has a characteristic color and taste, which work miracles for finishing touches on warm dishes or the preparation of salads, dressings, ice cream and to make cheese and desserts taste smoother.

PACKAGE

250 ml

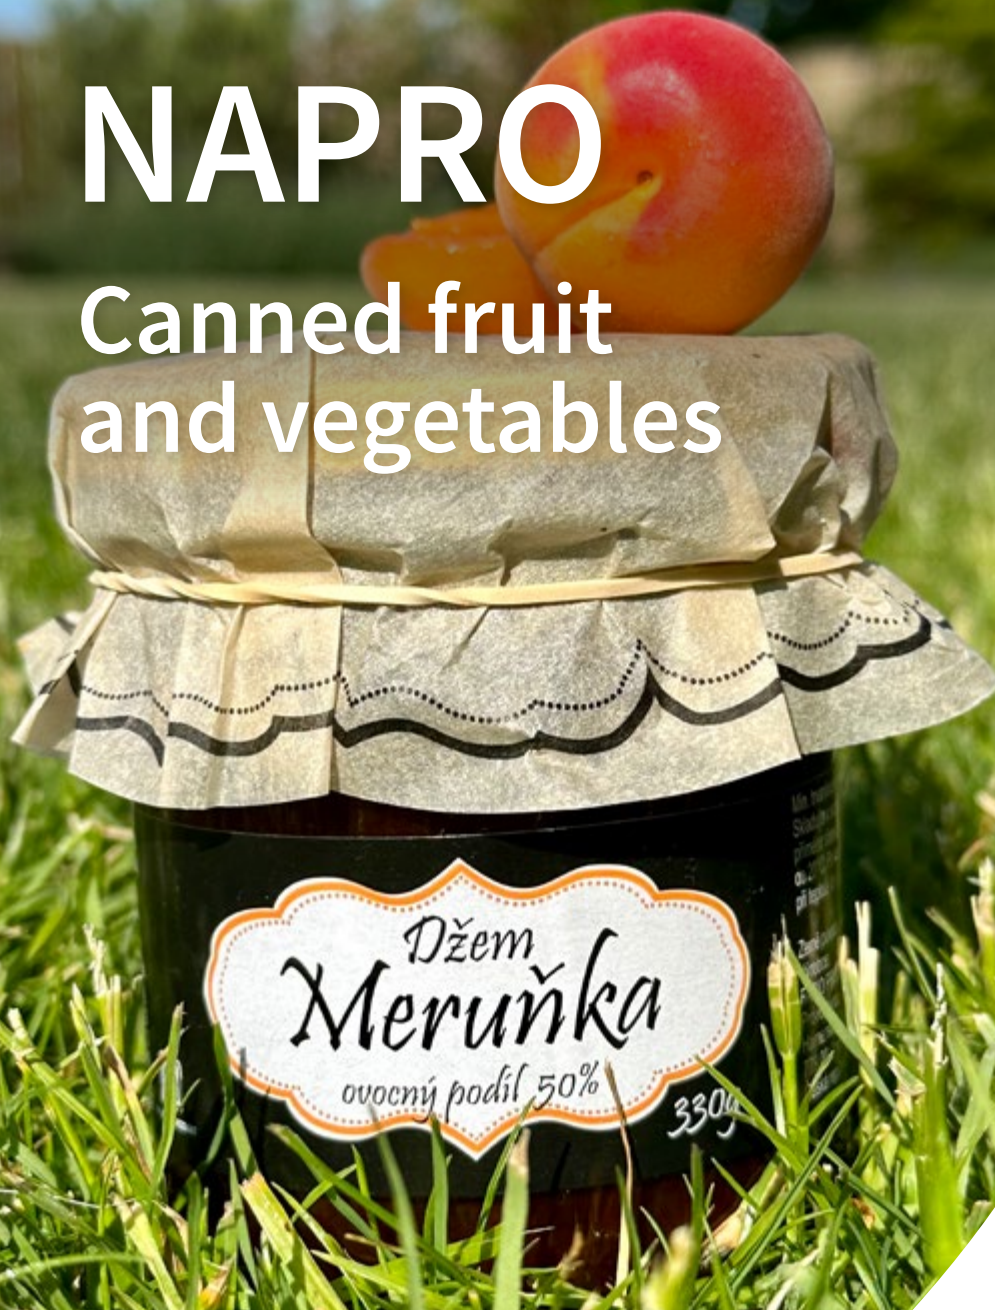

BOV technology (Bag-on-Valve)

- **Oil situated in the bag** is propelled out by compressed air
- **Safe packaging** – Propane-Butane free
- Oil is not in contact with the gas
 - **retains its aroma** and lasts longer
- **Bargain packaging**
 - BOV technology is able to use almost 100% of oil inside

NAPRO

Canned fruit and vegetables

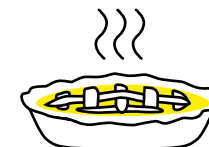

Original Czech made fruit and vegetable products

Our fruit fillings and vegetable sauces made under the NAPRO – Natural Product brand – found favor very fast in the hands of our long term customers among bakers, confectioners and restaurants.

For more household-suitable endeavors, we introduced a line of proper jams in glass jars, which offers the authentic Czech taste. With their help, creating traditional pastry like strudel and yeast rolls with poppy seed or plum butter filling becomes an easy task.

Jams

NATURAL PRODUKT

Our NAPRO collection in glass is a homage to summer and traditional Czech tastes. Besides jams, it entails also other favourite confection fillings, which bring the essence of this craft to the household. With our fillings, you can create the amazing pastry specialities of our region in a moment.

Raspberry jam

Premium jam with raspberry content 50 %

USE

Great with bread or pancakes, suitable for spreading on baked goods, but also for dough filling. Our tip: The distinctive raspberry taste enhances a traditional snack: bread with quark.

PACKAGES

330 g

Strawberry jam

Premium jam with strawberry content 55 %

USE

Great with bread, pancakes or crêpes, suitable for spreading on baked goods, but also for dough filling. Our tip: The delicate strawberry goes very well with pancakes.

PACKAGES

330 g

Apricot jam

Premium jam with apricot content 50 %

USE

Great with bread, pancakes or crêpes, suitable for spreading on baked goods, but also for dough filling. Our tip: The apricot jam is less solid than other flavors, spreads on cream foundations well.

PACKAGES

330 g

Jam Forest mix

Premium jam with fruit content 50 % (blackberry, raspberry, blueberry, strawberry, currant)

USE

Great with bread, pancakes or crêpes, suitable for spreading on baked goods, but also for dough filling. Our tip: The sharp taste of forest fruits perfectly supplements shortcrust pastry.

PACKAGES

330 g

Cranberries

Premium jam with cranberry content 55 %

USE

Cranberry jam is a traditional addition to Czech cream sauce foods but also goes well with sweet pastry where it adds an unorthodox taste.

PACKAGES

330 g

Fruit in gel

Our apples in gel, which we process all the way from apple to filling have an infinite amount of uses ranging from traditional desserts to inovative recipes. They add great flavor to the food by simple and fast means.

NATURAL PRODUKT

Apple cubes with cinnamon

Apple cubes in gel with cinnamon, **fruit content 90 %**

USE

Thermally stable filling used for filling doughs. In household use supplements sweet cooking – can be added to oatmeal, pour over dumplings, waffles, pancakes etc...

Plum butter

Plum butter with rum

Plum butter filling

PACKAGES

400 g - 13 kg depending on variant

Syrups

Inverted sugar syrups

USE

Sweetener of beverages, confections and pastry. Partial substitute for honey, suitable for feeding bees.

VARIANTS

Syrup from inverted sugar 72 %

Syrup from inverted sugar with honey 1 %

Honey delicacy

PACKAGES

5 - 13 kg depending on variant

Ketchups and sauces

Proper vegetable sauces and ketchups with high vegetable content for both gastronomy and household use. Adds an amazing taste to both Czech classics and foreign specialities.

Ketchup mild

Tomato ketchup

USE

Mild ketchup with balanced taste complements served dishes

PACKAGES

400 g, 5 kg, 10 kg

Vegetable sauce

A mixture of vegetables and tomato purée

USE

Finished sauce can be served as pepper stew, but shines best with meat or pasta.

PACKAGE

5 kg

Tomato purée

Tomato purée

USE

High quality purée with high tomato content for preparing sauces or flavouring dishes

PACKAGE

5 kg

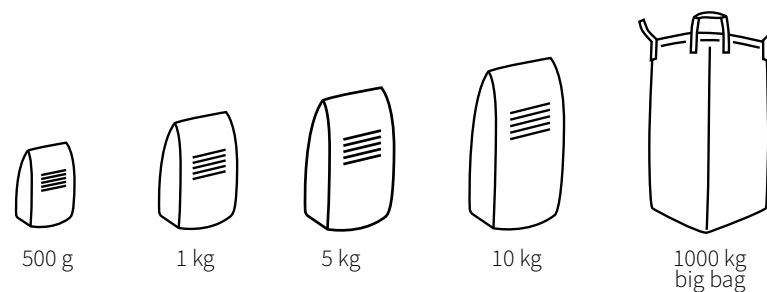

Seeds and dried fruit

Seeds processed with unique technology

We buy seeds from verified sources. We have our own seed cleaner at our disposal, which provides several separational processes of non-standard pieces and seeds go through a three channel color optical sorter reaching 99.9% purity. The modern production line is also equipped with a sunflower seeds dehuller.

Seeds are then packed on a fully automatic production line with a range of volume options. Vacuum sealed nuts, dried fruit and vegetables also belong to our product line.

Wholesale

For bakers, confectioners & HORECA

For sweet-smelling shops

Oil is an ingredient which does not like to remain on its own. That is why we also supply to our customers among the ranks of bakers, confectioners and HORECA an extended range of goods from refrigerated products to baking ingredients, spices or pasta from selected manufacturers.

We are able to provide food logistics with controlled temperatures according to the strict rules of the food industry. Thanks to this, our assortment offers even **fresh baking yeast**, continuously refrigerated during transport and storage.

**Regular delivery in
the Czech Republic
and Slovakia**

**We have our own vehicle fleet
and delivery network.**

Complex assortment

Dairy and refrigerated goods

Yeast, milk, creams, butter, lard and many other cooled products are delivered in our own refrigerated trucks.

Confectionery icing, glazing, frosting, gelatines, decorations, tools

A wide assortment of our own products for bakers and confectioners expanded by ready-to-cook products from other suppliers.

Pasta, legumes, long-life products

Pasta, rice, legumes and other food with long shelf life in large packages.

Flours, starches, mixtures, baking ingredients

High volume flour packages and baking mixtures, baking powder and other baking ingredients.

Spices, salt, sweeteners, sugars, aromas, colorings

Aromas for cooking and baking, spices, salt and other flavoring ingredients.

Canned fruits and vegetables, syrups

Canned vegetables suitable for further processing, fruit compotes, syrups for pastry and beverages.

Agricultural commodities and feedstuff

Press cakes as a valuable feedstuff raw material

Our production is closely connected with agriculture. We are not only oil-plant subscribers, but also producers of feed mixtures. Oil plant press cakes, which are a by-product of pressing oil crops, so-called expellers, are treated by extrusion, reaching better digestibility and shelf life. We also offer a wide range of agricultural commodities and we ourselves do farming on fields around Jičín under the brand Fabio Agro.

Fabio Agro as a pioneer of sustainable agriculture

The Jenček family has been farming in the heart of the Bohemian Paradise for over 150 years. In today's day and age, we shift our family tradition in a modern direction by implementing new methods of sustainable agriculture.

Over 150 years of family tradition

We strive for **sustainable agricultural practices** by buying suitable machinery, sowing green inter crops and returning organic matter back into the soil.

We are among the first to implement **regenerative farming on large acreages** (so called NO TILL technology).

Our road to carbon neutrality

We care about the environment and the future. We are relentless in our striving for emission reduction. We acknowledge, that soil and the care for it plays a major role in the road to carbon neutrality or even negativity. Regenerative agriculture is an effective way of reaching such ambitious goals. By sticking to its core principles, we are able to increase the carbon content in soil, improve the quality of soil and food and help the landscape regenerate.

Press cakes - expellers

The production of feed ingredients is no longer just a supplement and a logical extension of food oil production for us. By building a soybean pressing facility, we are meeting the demand of Czech agriculture. We offer year-round deliveries of raw oil and extruded expellers, and we are in year-round demand for soybeans and other oilseeds.

Extruded rape press cakes - expellers

Raw material used for feed mixture production or as an addition of animal feed rations

PACKAGES
In bulk

Extruded sunflower press cakes - expellers

Raw material used for feed mixture production or as a dietary supplement for rodents, rabbits

PACKAGES
In bulk

With us, you are more environmentally conscious!

In our own production, we use eco-friendly methods without chemicals and work only with **NON-GMO** ingredients.

Extruded Soybean press cakes - expellers

41 - 43 %
Crude protein

A blend of proteins to ensure proper growth and development of animals.

6 - 8 %
Crude fat

Provides animals with an energy source and helps maintain a healthy coat.

COMPOSITION
SOEX HiPRO monogastr

min. 5 %
Crude fiber

Important for supporting digestion and a healthy gastrointestinal system in animals.

Moisture 5 - 8 %
Urease max 0.4 N/g

Maintaining low moisture and urease levels helps prevent mold growth and extend shelf life during storage and feeding.

FABIO SOEX HiPROTEIN

Oils for technical use

Responsible towards nature

As a major vegetable oil producer in the Czech Republic, we consider the sustainability of our production to be a priority and a responsibility. That is why focusing on processing used cooking oil was a natural step for us. Such oil finds its use in workshops and heavy industry.

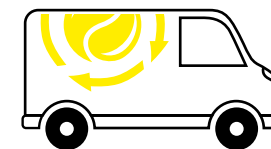

We offer to collect the used cooking oil (UCO) as a complex service:

We offer empty, **properly marked packages** suitable for UCO.

We prepare a **waste disposal contract** for inspection authorities.

We ensure **regular collection** of used cooking oil for the best price.

We **recycle the waste** and process it into a material with further use – biodegradable lubricants.

We are **certified** for waste handling, also with ISCC certification.

[More about ISCC certification on page 42](#)

Lespol technical oils

Lespol oils are suitable for use in workshops, forestry, agriculture, railroad and water transport. They have great lubrication capabilities and great oxidative stability even at high stress. Made from recycled cooking oil, these lubricants are a modern sustainable product, completely biodegradable and non-toxic to waters. Lespol lubricants are a perfect choice for situations in which the protection of the environment is an utmost priority.

Lespol

Oil for lossy lubrication of chains and saw bars of chainsaws, including electric ones, drills etc.
Viscosity: medium

PACKAGES

1 l, 5 l, 10 l, 20 l, 60 l, 200 l

Lespol-T technical

Oil for lubrication of machines in agriculture, forestry, construction industry and transport, for tool conservation etc.

Viscosity: low

PACKAGES

20 l, 60 l, 200 l

Lespol 100 V

Oil for lossy lubrication of chains on forestry equipment, where high lubrication capabilities are required.

Viscosity: high

PACKAGES

20 l, 60 l, 200 l

Lespol 125 V

Extra viscose variant

PACKAGES

20 l, 60 l, 200 l

Technical oils

Lespol-S separating oil

Oil for greasing iron casts, formwork parts, dump boxes and working tools that come in contact with bitumen, concrete etc. as a separating layer preventing adhesion of these materials to given surfaces.

PACKAGES

10 l, 20 l, 60 l, 200 l

Purified UCO

Used cooking oil useful as a component for fatty acid methylester production. Produced according to ISCC certified norms.

PACKAGES

Container, tank

Lespol-R thinner

Thinner serving as a thinning or cleaning agent. For cleaning surfaces contaminated by polymer vegetable oils. For lowering the viscosity in vegetable oils for technical use – better application of atomizers etc.

PACKAGES

1 l, 10 l, 20 l, 60 l, 200 l

Bell Zvolen

Vegetable oil from the heart of Slovakia

Bell Zvolen a. s., Slovakian oil producer with 20 years long tradition, became a part of our company in 2019. We restored this brand, expanded its sortiment and started with the collection and recycling of UCO. Bell Zvolen is therefore not only our extended arm on the Slovakian market, but first and foremost a traditional local brand with a complex product range.

Vegetable oils

Bell Zvolen offers its own line of oils:
Rapeseed, sunflower, vegetable and deep frying.

PACKAGES

1 l, 3 l, 5 l, 10 l, BiB 10 l, barrel, container, tank

Cooking oil sprays

Bell Zvolen presents an entire portfolio of cooking oil sprays to the Slovakian market.

PACKAGES

250 ml

Collection and recycling of UCO

Bell Zvolen has expanded its domain with UCO recycling thanks to a new centre in Vaňovice.

Local traditional brand

Operating on the market with oil plants for over 20 years

Production plant

For bottling oils into bottles and sprays

3 distribution warehouses

Zvolen, Vaďovce and Liptovský Mikuláš

Wholesale for bakers, confectioners and HORECA

With a complex assortment

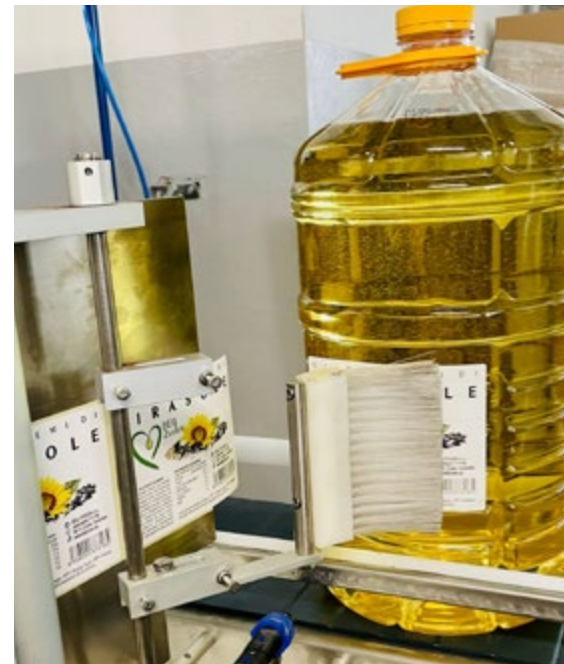

Regular delivery

With our own logistics all around Slovakia and the Czech Republic

Collection and recycling of UCO

Waste disposal is taken care of, including the legal side

Fabio Logistics

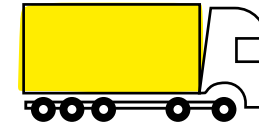

In constant movement

Our goods are delivered with our own vehicles around the Czech Republic and abroad. Under Fabio Logistics, we offer the transport of bulk commodities and liquid food.

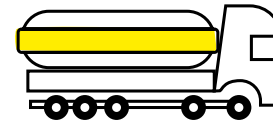

Our fleet:

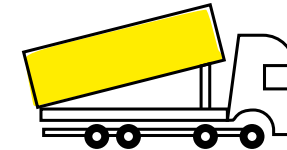

Delivery cars for direct sales and collection of UCO

Trailers for delivery of palletized goods and containers, including refrigerating sets

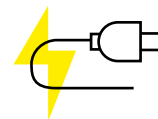

Tanks for delivery of oils and other liquid commodities

Dump trucks for delivery of bulk commodities

Electromobility

Our company passenger cars are gradually transitioning to EVs and we are preparing for the possibility of using EVs as delivery cars.

Euro 6

Our vehicles pass the strictest rules and our drivers are regularly trained

Always up to speed

Logistics software and vehicle location tracking is a matter of course

Control team

Ensuring an effective and smooth delivery

Domestic and international destinations

FABIO farm shops

Products from local Czech farmers all in one place

Fabio farm shops are part of our effort in supporting our region. Besides our goods, you can find various unique products mostly from the Hradec Králové region, seeing to the quality and tradition. We also include education into our operation – we explain the principles of waste recycling to the young generation, the advantages of buying from local producers and other tenets of responsibility towards nature and environment.

Shop sortiment

- Craft baked goods
- Dairy and meat
- Spreads, patés and jams
- Fabio oils
- Chocolate, cookies, sweets
- Nuts, dried fruit, packaging-free section, non-perishable food
- Coffee, tea, syrups, alcohol
- Seasonal fruit and vegetables

Gift packages with your logo

Let proper craft food from our region speak for your company

Behind every product in our assortment is the story of a producer, who made it with passion and emphasis on quality. All of those stories speak unanimously in our gift packs – beer and cured meat sausage on a cutting board, sweet package from the foothills of the Krkonoše mountains, lavender mix... Create packages, which represent your company by honest-to-goodness food. Not only the gifted will be pleased, but also you will find yourself giving them away with enjoyment.

Certificates and quality

Certification

The quality and safety of our products is constantly overseen. Every ingredient and end product is subjected to strict initial and exit controls taking place in our internal laboratories. During the production, legislative requirements of CZ and EU are adhered to and our employees are regularly trained.

IFS FOOD

The international norm for ensuring the safety and quality of food

GMP+

Fodder safety certification

ISO 14001

Environmental management norm

RSPO

Responsible palm oil manipulation and production certification

RSPO-4-1150-19-100-00

ISCC

Biofuel sustainability certification, greenhouse gas reduction in biofuel and bioliquid use
Trader – ISCC certified material trading; **collection, recycling and processing of UCO** (used cooking oil)

BIO

Purchase/sale

Kosher

Highest level of kosher supervision

Awarded products

Packages

Oils

Glass 250 ml, 500 ml, 750 ml

- Clear or amber coloring
- Oil insert for easy pouring
- In flavoured oils, barrier preventing herbs from falling out

Bucket 1 l, 5 l, 10 l

- Solid structure of PP (polypropylene) and PET (polyethylen terephthalate)
- Originality-sealing lid, in certain packages possibility of a transparent lid
- Easy manipulation thanks to handle with a comfortable grip

PET 1 l

- Full volume of 1 litre, lightweight PET
- Two-component seal with a screw-on lid with quick detaching perforated part with a sturdy handle
- The shape of the bottle ensures easy manipulation, company logo added
- Filled with nitrogen to extend shelf life

PET 3 l, 5 l, 10 l

- Lightweight PET
- Easy manipulation thanks to handle with a comfortable grip

Bag-in-Box 10 l

- New environmentally friendly trend in packaging
- Cardboard box with a plastic bag insert
- Equipped with a cover and a funnel placed inside the cut out part

Bag-on-Valve (BOV) 250 ml, 300 ml

- New technology of cooking oil spray packaging, oil is filled into a bag pushed by compressed air
- Safer – propelled only by compressed air
- Ensures higher shelf life and retains its original taste (no contamination by gas)
- 100% content emptying
- Controlled oil portions thanks to 3 modes of spraying (drop, stream, spray)

Oils – high volume packages

Plastic canister 5 l, 10 l, 20 l (technical oils)

- sturdy clear canister with a grip for an easy manipulation

Plastic drum 45 kg

- sturdy lid, sealed by a protective ring with top outlet, plug filling
- resistant to frost UV rays
- stackable

IBC container 300 kg, 580 kg, 920 kg

- filling through upper lid, equipped with an outlet, stable stackable packaging
- plastic pallet

Heated container 920 kg black

- top lid filling, equipped with an outlet, black colored plastic
- equipped with a heated blanket, stable temperature of 24 - 50 °C
- suitable for tropical oils, fat liquifies 24 hours after solidifying

Collapsible container with heating

- a NOVELTY allowing the warmup of fat for automatized production line use
- Control unit ensures the regulation of heating for smooth melting of the material
- 100% hygiene ensured, passes HACCP requirements
- Container from sturdy plastic is collapsible and washable, the bag (disposable) is made of three layers of foil with filling valves and outlets secured with a seal

Tank 13 tons, 26 tons

- Oil tank delivery

Seeds/dry fruits/agricultural commodities

Bag (vacuum sealed)
500 g, 1 kg

- transparent bags for vacuum sealing
- polyamid/polyethylen material

**Bag 500 g, 1 kg,
5 kg, 10 kg, 20 kg**

- Double-layered transparent foil
- Inner print

Big bag 1000 kg

- From a harmless, 100% recycled polypropylene fabric
- 4 solid grips for easy manipulation
- Possibility of repeated use

Bulk

- 25 tonne dump truck delivery

NAPRO products

Glass 330 g, 400 g

- Clear colorless thick cooking glass
- Screw-on metal lid

**PET 3,6 l,
Bucket 4 kg, 5 kg, 10-13 kg,
Barrel 40 kg**

- Solid structure of PP (polypropylen) and PET (polyethylen terephthalate)
- Easy manipulation thanks to handle with a comfortable grip
- bucket: originality-sealing lid, in certain packages possibility of transparent lid

**Stainless container
450 - 550 g, 750 - 850 g**

- top lid filling, equipped with an outlet
