

OILS FOR LOSSY LUBRICATING

| NAME | DESCRIPTION | PACKAGING |
|-------------------------|---|-----------|
| LESPOL | Oil for lossy lubricating of chains and bar of gas and electric saws, drilling sets, switches for railroads and other areas where maximum environmental protection is required. | |
| LESPOL 100V | Oil for lossy lubricating of chains of lumber industry equipment where higher lubricating ability of oil is required. Stationary lumber saws and other areas where maximum environmental protection is required. | |
| LESPOL - T (TECHNICAL) | Ecologically harmless entirely disposable refined vegetable oil for machine lubricating. Ideal for use in agriculture, forestry, construction and transportation. Non toxic to surface water. | |
| LESPOL - R (THINNER) | Ecologically harmless product made from fatty acids of rapeseed oil, entirely degradable. Use of product: thinner or cleaning component for objects stained by polymeric vegetable oils. It lowers viscosity of vegetable oil. For technical use, easier application of sprays. For other areas where maximum environmental protection is required. | |
| LESPOL - S (SEPARATING) | Ecologically harmless oil, entirely degradable. Use of product: separating liquid used for coating of iron forms, formwork units, iron constructions and tools that come in contact with concrete etc. It prevents sticking of those materials to those surfaces. For other areas where maximum environmental protection is required. | |
| LESPOL 125V | Oil for lossy lubricating of chains of lumber industry equipment where higher lubricating ability is required. Stationary lumber saws and other areas where maximum environmental protection is required. | |
